

Verification Statement

20 August 2020
Statement No : SGS20/012

Hiroshi Ohkubo,
Director Representative Executive Officer
President, Executive Officer CEO
NTN Corporation

Objective

SGS Japan Inc. (hereinafter referred to as "SGS") was commissioned by NTN Corporation (hereinafter referred to as "the Organization") to conduct independent verification based on Criteria of Verification (ISO14064-3: 2006 and the SGS verification protocol) regarding the data prepared by the Organization on the scope of verification (hereinafter referred to as "the assertion"). The objective of this verification is to confirm that the assertion in the Organization's applicable scope has been correctly calculated and reported in the assertion in conformance with the criteria, and to express our views as a third party.

Scope

The scope of verification is Scope 1 and 2 emissions, energy consumption, and Scope3 emissions. The period subject to report is from 1 April 2019 to 31 March 2020. Refer to the attached sheet for the detailed scope of verification.

Procedure of Verification

The assertion was verified in accordance with Criteria of Verification, and the following processes were implemented at a limited level of assurance:

- Verification of the calculation system: Interviews on the measurement, tabulation, calculation and reporting methods employed by the Organization as well as review of related documents and records
- Verification of the assertion: On-site verification and review of vouchers at NTN AKAIWA CORPORATION. On-site verification and vouchers review carried out remotely by connecting with NTN NOTO CORPORATION via the Internet as special measures due to COVID-19 outbreak. Analytical procedures and interviews for the other sites within the scope of verification carried out at the Organization's Headquarters

The criteria for this review are based on Act on the Rational Use of Energy and the procedure for aggregating and reporting energy consumption and CO2 emissions specified by the Organization, Basic Guidelines on Accounting for Greenhouse Gas Emissions throughout the Supply Chain, Ver. 2.3 and the Database of emissions unit values on the same Accounting Ver. 2.6.

Conclusion

Within the scope of the verification activities employing the methodologies mentioned above, nothing has come to our attention that caused us to believe that the Organization's assertion was not calculated and reported in conformance with the criteria. SGS Japan Inc. affirms our independence from the organization, being free from bias and conflicts of interest with the Organization.
