

<b>Preface</b>	<b>Automotive Products for Electric, Autonomous and Low Fuel Consumption</b> Yoshinori TERASAKA	1
<b>Contribution</b>	<b>Perspective for Advanced Vehicle Technology into CASE Era</b> Hideo INOUE <small>Professor, Faculty of Creative Engineering, Chair of Department of Vehicle System Engineering, Kanagawa Institute of Technology</small>	2
<b>Perspective</b>	<b>NTN's Approach and Effort for CASE</b> Koji KAMETAKA	13
<b>Special Issue for Modular Products for Electric and Autonomous for Automobiles</b>		
	Hub Bearing Module with Steering Adjust Function Satoshi UTSUNOMIYA, Norio ISHIHARA, Yuusuke OOHATA, Atsushi ITO	18
	Hub Bearing Module with Motor and Generator Function Kentaro NISHIKAWA, Mitsuo KAWAMURA, Hiroki YABUTA, Atsushi ITO	24
	Development of Control Platform for Electric Module Tatsuji INOUE, Kazuhiro AOSHIMA, Yuichi SUGIMOTO, Keigo MOTOKUBO	30
	Introduction of Sensor Modular Products and Technologies for Autonomous Driving and Electrification of Automobiles Yasuyuki FUKUSHIMA, Hiroyuki HAKAMATA, Christophe DURET	37
	Vehicle Motion Control with In-Wheel-Motors Junichi HIRATA, Yuta SUZUKI	44
<b>Automotive Products for Low Fuel Consumption</b>		
	History of Development of Bearings for Automobiles Aiming at Low Fuel Consumption Takashi YASUNISHI	50
	History of Development of Axle Bearings Aiming at Low Fuel Consumption Makoto SEKI	55
	History of Development of Constant Velocity Joints Aiming at Low Fuel Consumption Tatsuro SUGIYAMA	59
	Low Friction Hub Bearing Ⅲ Makoto SEKI	63
	Fuel-efficient Compact Chain Tensioner Kouichi ONIMARU, Ikumi AGATA	68
	Fixed Constant Velocity Joint with Ultra High Angle and High Efficiency "CFJ-W" Masashi FUNAHASHI, Mika KOHARA	74
	Compact Plunging CVJ for Propeller Shaft "HEDJ-P" Masazumi KOBAYASHI	80
	New Technology of Rolling Bearings contributing to Low Fuel Consumption of Automobiles Takayuki KAWAMURA, Hiroki FUJIIWARA, Kouya OOHIRA	85
	Verification of Torque Reduction for Low Torque Seal Ring by Fluid Analysis Takuya ISHII, Tomohiko OBATA	92
	Analysis of Dynamics of Hub Bearings under Moment Loads Tomoya SAKAGUCHI, Naoto SHIBUTANI	97
<b>Award Winning Products</b>		
	2018 "CHO" MONODZUKURI Component Award, Mobility Components Award, Ultra-low Friction Sealed Ball Bearing for Transmission Katsuaki SASAKI, Takahiro WAKUDA, Tomohiro SUGAI	104
	The 28th Nikkei Global Environmental Technology Awards, Award for Excellence, Micro Hydro Turbine Masatoshi MIZUTANI, Fumihiko MATSUURA, Tomoya KAWAI, Hiroki MUKAI, Takashi ITO, Tomomi GOTO, Yasunari KANAMURA, Kanta KIMURA, Kouji TATEISHI	105
<b>Our Line of New Product</b>		
	Handy Type Failure Detection Device	106
	N <sup>3</sup> N-CUBE, Container Type Transportable Independent Power Supply	107
